

## Apple User Group

Jan 26, 2015 Episode 53\*

February 23, 2015 9:30 Am

# Apple News!

## Apple News

- Bank of America customers activate 1.1 million cards on Apple Pay
- Apple posted an 18.9 percent year over year growth in Mac Sales in the December quarter of 2014
- AT&T says that beginning on January 25, all customers on a current AT&T Mobile Share Value plan will receive the new Rollover Data feature at no additional cost.
  - If you have a 1 GB plan and only use 0.5 GB, the next month you can use 1.5GB without any additional charges. Rollover only good for 1 month.

## Apple News

- At CES this year, there were several announcements of gadgets that incorporate Apple's HomeKit. Example: Switch smart plug which is controlled by an iOS APP. "Siri, turn off the ..."
- Apple has been adding Imillion iBookstore users per week since Yosemite released (which includes the iBooks app).
- App Store made a record \$500 million on New Year's Day.

# App Store made more than Hollywood last year

## Google Translate

- The Google Translate App has been updated to include World Lens functionality (World Lens is no longer available)
- Open the App and use the camera to view text and the App will translate the text for you.

# How To Backup and Sync iOS Devices thru iTunes

- You can back up your iDevice to either iCloud or to iTunes (or both).
- iTunes is the preferred backup method if you are running out of iCloud storage
- You can also upgrade your iDevice from iTunes and it doesn't require as much storage on your iDevice as upgrading "over the air"
- iTunes is also used to sync content between your computer and your iDevice
- To begin plug your iDevice into your computer using the cable that came with your computer.

- Prefer standard definition videos
- Convert higher bit rate songs to 128 kbps \$ AAC
- Manually manage videos
- Reset Warnings
- Configure Accessibility...

## Syncing Content

## Your Questions

## Question

- All my music is on my computer. I don't want to put it on my iPad.
- Is there anyway to play the music that's on my computer thru my iPad?
- How can I improve the quality of music on my iPad?

## Home Sharing

- Home Sharing is a feature that allows you to listen to your iTunes music library on other PCs/Macs or iOS devices
- Once Home Sharing is turned on, use the Music app on your iDevice (or iTunes on your PC/Mac) to access the iTunes library
- Your computer must be on and iTunes running for this to work
- To improve the quality of music on your iPad try using a good pair of headphones. I think you'll be amazed on what you'll hear vs the small speakers on your iPad

## Turn Shared Libraries On

### Home Sharing

Home Sharing makes it easy to play or copy music, movies, and more among computers in your home. Just use the same Apple ID on up to five computers.

Enter the Apple ID used to create your Home Share.

account\_name@example.com

No Thanks

Turn On Home Sharing

Don't have an Apple ID?

## How To Use Home Sharing

## Question

- On my 16 gb iPad it appears only about 5+ gb are really available for use
- I am continually finding I have so little space on my iPad it prevents me from doing certain things.
- So my question is which are the best things to free up space?

## Storage Space - iOS

- A 16GB iPhone or iPad gives you around 12 GB to use.
- The iOS 8.0 upgrade required 5.8GB if you installed it "over the air" (Settings/General/ Software update)
- Therefore, if your iPad is close to being full, you would have to delete half your content in order to make space for the iOS 8 download (if you don't use iTunes for the upgrade.)
  - Apps can use between 3MB to 500MB (or more)
  - Approximate storage requirements: Songs (4MB), Photos (1.5MB), PhotoStream (900MB),
     Full length Movies (1.5GB)
- Active users should get the 32 or 64 GB models vs. the 16GB models
- Use the Settings App to see where your storage is being used
- Settings > General > Usage > Manage Storage (Works for both local storage or iCloud storage)

## Question

• Could you please talk about Pages? I would like to write letters in Pages and make labels.

# Labels (OS/X)

Columbia Travel P.O Box 219 Old Chatham NY 12136

Colonial Airport Parking 630 South Governor Printz Blvd Lester PA 19029

- Mail Merge is no longer a function of Pages
- You could download a Pages template and fill it in
- However, an easier way is to use your Contacts App
- Just select the contacts you wish to print and go to the print menu (see following slides)
- Create a group if you intend to print the same labels out repeatedly in the future.

# Question

• Is there a way to print a hard copy of all of the contacts on the computer?

## Printing Contacts

- Labels is one way to print out your contacts
- You can also print out lists from your contacts
- You select which fields you wish to print and the orientation (landscape or portrait)
- All of this is done from the print menu in the contacts app
- Another way is to use the File>Export as PDF. This gives you a list of all fields that are filled in. You don't have as much control, but this may be all you want.

## Letters in Pages

- Easiest way to do a letter is to Open Pages and choose "Stationary" from the template chooser
- Choose a template that is close to a style you wish to use
- Choose a element, then start typing or hit delete if you don't want that element.
- Use the sidebars as needed to format or add elements
- Can be as simple or complicated as you want.
- The best way to learn is to create a dummy letter and try out the different options on the sidebar. Have fun and explore. Use the help menu.

- Manage documents
- Share and print documents
- Keyboard shortcuts

# Question

• How can I put a manual on my iPad and use it in iBooks?

## Online Manuals

- Whenever I get a new tool, gadget, or appliance I like to download the electronic version of the manual ASAP
  - It's easier to read electronically
  - You can often get an english only version
  - It's easier to find years down the road
  - It serves as a good backup in case I lose the original
- Most manuals are online in PDF format often under a support section. Best way to find one is to Google the Brand/Model name followed by "manual" and look for "PDF" format
